

ROYAL ENERGY SARL

Powering Your Journey.

Royal Energy SARL is a premium fuel provider operating a growing network of service stations across the Democratic Republic of Congo.

ABOUT COMPANY

History & Objectives

Royal Energy SARL was established with a clear objective: to bring dependable, accessible, and professionally managed fuel services to regions where quality and consistency were often lacking. Built on industry insight and a deep understanding of local demand, the company expanded from core fuel distribution activities into station operations, offering communities modern and well-run refueling points. Over time, Royal Energy evolved into a versatile energy partner for transport fleets, businesses, and everyday customers.

MISSION

To supply high-quality fuel and outstanding service through safe operations, efficient delivery, and customer-focused solutions.

VISION

To become one of the most reliable and respected fuel providers in the DRC, known for service excellence, quality, and sustainable growth.

CORE VALUES

- ✓ Integrity
- ✓ Efficiency
- ✓ Quality
- ✓ Safety
- ✓ Customer Commitment
- ✓ Reliability

SERVICES & SOLUTIONS

1 Petrol (Super)

2 Diesel (Ago)

BUSINESS OVERVIEW

MARKET FOCUS

Industries: Transport, logistics, mining, manufacturing, construction, and general retail consumers.

Target: Fuel stations, mining operators, truck fleets, corporate clients, and walk-in consumers across the DRC.

Regions: Operates across key urban and regional hubs within the Democratic Republic of Congo, with expansion into emerging market areas.

COMPETITIVE ADVANTAGE

1 Premium service station experience

2 Reliable bulk fuel delivery

3 Strong quality and safety standards

4 Fast and responsive customer service

5 Strategic locations for convenience

6 Consistent supply chain and fuel integrity

TECHNOLOGY

Royal Energy utilizes industry-standard fueling systems, including:

- Certified storage and dispensing infrastructure
- Fuel quality monitoring procedures
- Safety and compliance systems for handling and transport
- Modern operational processes for station management

OUR LEADERSHIP

M

Managing Director – Oversees strategic growth and leadership

O
